

RELEASE

## Designer, Frontend Developer & Mentor

I design and code beautiful simple things, and I love what I do.

Hi, I'm Isarn. Nice to meet you.

Being interested in the technical design takes more than a decade ago. I have graduated from school with various degrees, provided consulting services to startups, and teamed up with skilled individuals to craft digital products tailored for both commercial and consumer purposes. I possess a great command, an honest sense of conduct, and an ongoing commitment to continuous design skills, making design challenges one step at a time.

### My Recent Work

Here are the past recent projects I've worked on. Want to see more? Email me.

#### Project Description: Beer Website Design and Motion Graphics

As a passionate designer and motion graphics enthusiast, I took the lead in creating a visually engaging and user-friendly beer website for our first project, collaborating closely with my talented friend to bring our vision to life. The project seamlessly merged my expertise in design, motion graphics, and Adobe XD to produce an exceptional online platform for beer enthusiasts and connoisseurs.

#### Testimonial

People I've worked with have said some nice things.

"I have a great pleasure to work with and would recommend working with him again. He's definitely the kind of designer you can trust with a project from start to finish."

Vinod Kumar  
CEO of Pizzeria Hub

#### Start a Project

Interested in working together? We should grab a drink or two. Or just hit the coffee.

I design and code beautifully simple things, and I love what I do.

Having embarked on my freelance design career more than a decade ago, I have engaged in remote projects with various agencies, provided consulting services to startups, and teamed up with skilled individuals to craft digital products tailored for both business and consumer purposes. I possess a quiet confidence, an innate sense of curiosity, and an ongoing commitment to enhancing my design skills, tackling design challenges one step at a time.

Here are a few past design projects I've worked on. Want to see more? Email me.
